Advance Planning

Just like everything else in our world right now, Funerals are changing too...

If planning ahead has been on your list of things to do, or you have questions about how COVID-19 has impacted funerals and cremations, please join us on Tuesday, July 14th at 6 p.m. for a 90-minute program.

We will be "social distancing," using increased sanitation, and limiting the number of attendees to the state mandated figures in effect at that time.

This will be a great opportunity to get out of the house, visit with your neighbors, dispel myths, remove doubt, and get real answers to any questions you might have.

FREE 16-Page Funeral & Cremation Planning Guide.

Please call 651.345.2113 or email mahnfunerallc@gmail.com to reserve your seat today!

ADVANCED HEARING AID TECHNOLOGY

For Less Than \$200

*"I was amazed! Sounds I hadn't heard
in years came back to me!"*

— Don W., Sherman, TX

**How can a hearing aid that costs
less than \$200** be every bit as good as
one that sells for \$2,250 or more?

The answer: Although tremendous strides
have been made in Advanced Hearing Aid
Technology, those cost reductions have
not been passed on to you. Until now...

MDHearingAid® uses the same kind of
Advanced Hearing Aid Technology incorporated
into hearing aids that cost thousands more at
a small fraction of the price.

Over 300,000 satisfied **MDHearingAid**
customers agree: High-quality, FDA-registered
hearing aids don't have to cost a fortune.
The fact is, you don't need to spend thousands
for a hearing aid. **MDHearingAid** is a medical-
grade hearing aid offering sophistication and
high performance, and works right out of the
box with no time-consuming "adjustment"
appointments. You can contact a licensed
hearing specialist conveniently online or by
phone — even after your purchase at
no cost. No other company provides such
extensive support. Now that you know...
why pay more?

DOCTOR DESIGNED | AUDIOLOGIST TESTED | FDA REGISTERED

Can a Hearing Aid Delay or Prevent Alzheimer's and Dementia?

A study by the National Institute on Aging
suggests older individuals with hearing loss are
significantly more likely to develop Alzheimer's
and dementia over time than those who retain their
hearing. They suggest that an intervention — such
as a hearing aid — could delay or prevent this by
improving hearing!

TAKE ADVANTAGE OF OUR 45-DAY RISK-FREE TRIAL!

Hearing is believing and we invite you to try
this nearly invisible hearing aid with no
annoying whistling or background noise for
yourself. If you are not completely satisfied
with your MDHearingAid, return it within 45
days for a **FULL REFUND**.
