**NOTICE TO FLORENCE TOWNSHIP RESIDENTS:** Many of you have asked us about the recent closure of the township's compost/brush site at the south end of Van Blarcom Avenue in Old Frontenac. The site, which quickly fills up, has been closed because of lack of space, unauthorized burning and the rogue deposit of large, problematic materials. The Town Board is researching solutions, and will update the township website ([florenctwp.org](http://florenctwp.org)) if and when the site reopens. (As a side note, the Lake City and Red Wing compost sites have told us that they cannot take Florence Township brush and compost at this time.) Thank you for your patience on this matter. — Pamela Miller, town clerk. 16-18-29-31c

Important Facts About Indoor Air Quality

• Most people spend 60-90% of their time indoors.

• The levels of some hazardous pollutants in indoor air has been found to be up to 70 times greater than in outdoor air.

• Studies have shown that two out of three indoor air quality problems involve the HVAC/Air Duct System

• One out of six people who suffer from allergies do so because of the direct relationship to fungi and bacteria in air duct systems.

It's time to clean your dryer vent if:

• Drying clothes takes longer and longer

• Clothing is hot or damp at the end of the cycle

• Your outside vent hood flap doesn't open properly

• The outside of your dryer becomes very hot

• You notice a burning smell when drying clothes

• It's been more than a year since your last inspection

Don't wait until it's too late, call Banks Heating today!
