Have you cleaned your dryer vent lately?
 Professional dryer vent cleaning will significantly reduce the fire hazard caused by lint accumulation and will reduce the drying time of each load, saving you money on your utility bill.
It's time to clean your dryer vent if:
 • Drying clothes takes longer and longer
 • Clothing is hot or damp at the end of the cycle
 • Your outside vent hood flap doesn't open properly
 • The outside of your dryer becomes very hot
 • You notice a burning smell when drying clothes
 • It's been more than a year since your last inspection
