DEPARTMENT OF HOMELAND SECURITY

FEDERAL EMERGENCY MANAGEMENT AGENCY

Proposed Flood Hazard Determinations for Wabasha County, Minnesota and Incorporated Areas

The Department of Homeland Security's Federal Emergency Management Agency has issued a preliminary Flood Insurance Rate Map (FIRM), and where applicable, Flood Insurance Study (FIS) report, reflecting proposed flood hazard determinations within Wabasha County, Minnesota and Incorporated Areas. These flood hazard determinations may include the addition or modification of Base Flood Elevations, base flood depths, Special Flood Hazard Area boundaries or zone designations, or the regulatory floodway. Technical information or comments are solicited on the proposed flood hazard determinations shown on the preliminary FIRM and/or FIS report for Wabasha County, Minnesota and Incorporated Areas. These flood hazard determinations are the basis for the floodplain management measures that your community is required to either adopt or show evidence of being already in effect in order to qualify or remain qualified for participation in the National Flood Insurance Program. However, before these determinations are effective for floodplain management purposes, you will be provided an opportunity to appeal the proposed information. For information on the statutory 90-day period provided for appeals, as well as a complete listing of the communities affected and the locations where copies of the FIRM are available for review, please visit FEMA's website at https://www.floodmaps.fema.gov/fhm/BFE_Status/bfe_main.asp or call the FEMA Mapping and Insurance eXchange (FMIX) toll free at 1-877-FEMA MAP (1-877-336-2627).

Paul's natural musical talent on guitar, especially slide, has garnered worldwide praise from his colleagues and critics. Vintage Guitar Magazine and Blues Matters UK have drawn comparisons to the work of Duane Allman, Lowell George and others. His rich vocals have been receiving as much attention as his guitar tone and melodic riffs.

Important Facts About Indoor Air Quality

- Most people spend 60-90% of their time indoors.
- The levels of some hazardous pollutants in indoor air has been found to be up to 70 times greater than in outdoor air.
- Studies have shown that two out of three indoor air quality problems involve the HVAC/Air Duct System
- One out of six people who suffer from allergies do so because of the direct relationship to fungi and bacteria in air duct systems.

It's time to clean your dryer vent if:

- Drying clothes takes longer and longer
- Clothing is hot or damp at the end of the cycle
- Your outside vent hood flap doesn't open properly
- The outside of your dryer becomes very hot
- You notice a burning smell when drying clothes
- It's been more than a year since your last inspection

Thank You Notes

Sexton

We would like to thank everyone that gave cards, gifts, made bars and came to help us celebrate our 50th.

Thanks to Becky Houghton for taking our family pictures and pictures at the party. They were amazing.

Most of all, thanks to Christy, Amy, John, Austin and Claudia for all the planning, decorating, serving and clean up, and for the wonderful plaque. We are so blessed to have amazing family and friends.

Love, Bill and Steph 35-23p
