I'm John Redmond.

A lifelong, current full-time resident and candidate for mayor of Lake City.

This is where I stand on the issues Lake City voters should be concerned with:

- 1.) I am in favor of going back to a referendum vote. Past projects such as the public service building, current projects such as the road construction through town, and future projects such as the transformation of the park/beach property should all be determined through this manner. Major investments and large financial commitments should be decided by the voters of Lake City and not by a council majority.
- 2.) I favor stopping the use the financial reserves (electric utility and the marina) as a slush fund for poor planning and budgeting.
- 3.) The city needs to curb its spending. We must pay for one project before starting the next. New projects, with voter approval, must be based on need and not want. The city should freeze spending and reduce our property taxes.
- 4.) Allow city boards to provide more input to the city. City staff need more guidance from the voters of Lake City, various boards once provided that help. All major decisions should not be made solely by 6 elected officials. As presently set, the council does not need voter influence to make the majority of their decisions. A reexamination of this influence should be looked into and changed.
- 5.) The Jewel property should be merged with the city. Lets help the property owners get homes built and put the increased property taxes on the books. We must make it easy for families to build and live at the Jewel.

I am always interested in the point of view of others. I encourage you to stop by or call ACE Rental (651-345-5506) Mondays through Fridays from 7:30 A.M. to 4:00 P.M.

Thanks for your consideration and remember to vote on November the third!
