PUBLIC NOTICE

To ensure a safe drinking water supply, Lake City Utilities will be adding chlorine to the water system from July 30 to Aug. 5, 2018. The addition of chlorine to disinfect water can react with iron and/or manganese, creating a black or reddish discoloration, but does not cause a health concern. Citizens can let the water run a few minutes to flush faucets of discolored water before using for cooking or laundry. Use of chlorine can cause problems in fish tanks and commercial operations such as bait shops. It is recommended that these uses find an alternate source of water during this period or use commercially available chemicals that neutralize chlorine. Presence of chlorine will remain a few days following the treatment period. Questions can be referred to Scott Jensen at 651-345-6850 or Tim Dick at 651-301-0578.

If we could visit Heaven even
for a day, maybe for a moment the
pain would go away.

We'd put our arms around
you, and whisper words so true;
that living on without you is the
hardest thing to do.

No matter what we do, no
morning dawns or evening falls,
when we don't think of you.

You are loved and sadly missed
