BEFORE AFTER

Important Facts About Indoor Air Quality

- Most people spend 60-90% of their time indoors.
- The levels of some hazardous pollutants in indoor air has been found to be up to 70 times greater than in outdoor air.
- Studies have shown that two out of three indoor air quality problems involve the HVAC/Air Duct System
- One out of six people who suffer from allergies do so because of the direct relationship to fungi and bacteria in air duct systems.

Have you cleaned
your dryer
vent lately?

Professional dryer vent
cleaning will significantly
reduce the fire hazard caused
by lint accumulation and will reduce the drying time
of each load, saving you money on your utility bill.

It's time to clean your dryer vent if:

- Drying clothes takes longer and longer
- Clothing is hot or damp at the end of the cycle
- Your outside vent hood flap doesn't open properly
- The outside of your dryer becomes very hot
- You notice a burning smell when drying clothes
- It's been more than a year since your last inspection

THANK YOU NOTES

KOPP
Thank you is often expressed to show appreciation for something received or a service provided but this thank you goes beyond that. This thank you is meant for the friendships shared; for the hugs wrapped around us; for the words, the thoughts, the prayers given; for the cards and notes and food and gift cards and donations provided; for the memories written on Caring Bridge and Facebook; all that and yet even more importantly for the love and caring that the Lake City School District and the Lake City community is known for and once again has displayed.

From the onset of her cancer in January until her passing on September 26, Carey Anderson Kopp felt that kind support and when she was able to enjoy the musical tribute held in her honor that beautiful Sunday afternoon she knew all was okay and she was appreciated. Thank you from the family who grew up with her and cherish her memory. Carey would remind you to always “spread love”
